

DEVERRA

Cross-Linked Hyaluronic Acid

*Our strength in your trust*  
*Shine with* **DEVERRA**

## ALL ABOUT DEVERRA HA FILLERS

**Hyaluronic acid (HA)** is a naturally occurring substance that keeps skin moisturized and soft.

DEVERRA fillers are nonsurgical options that contain a modified form of HA. Treatment with DEVERRA products by a licensed specialist provides long-lasting, natural-looking results.

DEVERRA is the hyaluronic acid fillers. Each product in the DEVERRA Collection of Fillers adds volume to a different area of the face and body without surgery. All DEVERRA fillers are smooth, crystal-clear gels that are administered by injection in your aesthetic healthcare provider's Clinic.

Commitment is to provide patients a wide range of new medical solutions with an excellent of safety and efficacy. We promise to be the Brand with trust and faith by providing high quality products that give the best value.

Medical devices for professional use.  
Only to be injected by an authorized medical professional.
